STATE CLEARINGHOUSE

NEWSLETTER

October 1 through 15, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1 through 15, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of October 1-15, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002
TO: ALL CEQA LEAD AGENCIES
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE
RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, October 01, 2002</u>			
1997121030	Roripaugh Ranch Specific Plan-Revised Draft EIR Temecula, City of Temecula--Riverside The current project proposes 2,058 units on 804.7 acres, including 1,044 low and low medium density single family units and 1,014 medium density single family units. The project also includes 15.4 acres (110,000 square feet) of commercial uses, a 12-acre elementary school site, a 20-acre middle school site, a 5.1 acre neighborhood park, a 19.7 acre community park with lighted athletic fields, 9.1 acres of private recreational facilities, 202.7 acres of biological habitat, 56.6 acres of flood control and landscaped slopes, and a 2-acre fire station site. The current project has a gross density of 2.56 units/acre and a net density of 4.97 units/acre.	FIN	
2002101008	El Sur Ranch Water Right Permit (Application 30166) State Water Resources Control Board, Division of Water Rights --Monterey Water rights permit to continue pumping of Big Sur River underflow for agricultural irrigation purposes.	NOP	10/30/2002
2002102003	Gateway South Office Building and Fire Station Scotts Valley, City of --Santa Cruz The proposed project is an amendment to the Gateway South Specific Plan (City of Scotts Valley, 1995) to allow the construction of: 1) the Gateway South Office Building, and 2) a fire station for the Scotts Valley Fire District. The Gateway South Office building would be built on a 17.6-acre parcel west of La Madrona Drive and southwest of the Mt. Hermon Road/State Highway 17 interchange. It would entail approximately 136,000 square feet of office development on two stories, surrounded by parking for approximately 550 vehicles. Approximately 6.6 acres would be developed, with the remainder of the parcel as open space or landscaped areas. The proposed fire station would be built on a 1.5-acre site to the east of the office building site on La Madrona Drive and would entail approximately 12,000 square feet of development on two stories, with parking for approximately 23 vehicles. Nearly 100% of this site would be developed.	NOP	10/30/2002
2002062109	Changes to San Mateo County Well Ordinance San Mateo County San Mateo--San Mateo Proposed project is an amendment to the existing County Code of Regulations, starting with Chapter 4.68, regarding wells. Specifically, the proposal is to add a section to the Well Ordinance regarding the issuance of permits for large wells in the Westside Basin Aquifer. The Westside Basin Aquifer spans from the area along the western third of San Francisco, south into San Mateo County, east of the San Andreas Fault line to the southern Burlingame/northern San Mateo border.	Neg	10/30/2002
2002081138	San Diego State University Student Health Services Facility Campus Master Plan 2003 MND Initial Study California State University, San Diego San Diego--San Diego The proposed SHS project will involve the construction of a new four-story building that will occupy a footprint area of 18,000 s.f. between Aztec Walk and Hardy Avenue. The proposed project footprint will occupy all of the existing 111-space parking lot J and an adjacent vacated parcel currently occupied by a fraternity	Neg	10/30/2002

<u>Documents Received on Tuesday, October 01, 2002</u>			
	house. The proposed SHS will contain approximately 75,000 gross sf. of facility space over a single-level parking garage with capacity for 90 vehicles including visitor, emergency vehicles, delivery and handicap spaces. A new surface parking lot (Lot O) will also be constructed north of Aztec. Walk providing an additional 90 spaces for staff and special permit parking. Lot O will be used as the marshaling yard during construction. The majority of students are expected to access the SHS via Aztec Walk, which will be widened and enhanced with seating and landscaping to provide an outdoor plaza suitable for student events. The project related car traffic, while minimal, is anticipated to be east to west, as the Hardy Avenue frontage is presently a one-way street. The College Community Redevelopment Design Guidelines specify that all streets in this area will eventually be converted to a two-way traffic. The proposed project will be designed with this future conversion in mind. The site of the existing 35-year old SHS building, at the intersection of Campanile Drive and Hardy Avenue, will be incorporated into the College Community Redevelopment mixed use project.		
2002101001	2002 Rocket Propulsion Engineering Project East Kern Airport District --Kern Project consists of a remote site for static testing of rocket and jet engines at thrust levels common to jet aircraft currently operation at Mojave Airport (10,000-100,000 lbf). No flight tests will be conducted. Engine tests will be conducted from fixed test stands at ground level, with thrust in the horizontal direction aimed easterly (away from Mojave and with the direction of the prevailing wind).	Neg	10/30/2002
2002101002	2002 General Kinetics Project East Kern Airport District --Kern Project consists of a remote site for static testing of engines no larger than 20,000 lbf which is in the current thrust level range (10,000-100,000 lbf) common to jet aircraft currently operating at Mojave Airport. The impact of noise would be minimal due to the remote location of test site in relation to the nearest inhabited surrounding area.	Neg	10/30/2002
2002101003	El Rio West Annexation Oxnard, City of Oxnard--Ventura Planning and Zoning Permit Nos. PZ 02-620-4 (General Plan Amendment), 02-610-3 (Annexation) and 02-560-2 (Pre-Zoning), a request for a general plan amendment to change the general plan land use designation from regional commercial to low density and low medium density residential and general commercial, annexation of approximately 23.52 acres of land and pre-zoning of approximately 23.52 acres.	Neg	10/30/2002
2002101004	Pinnacles Telephone Company San Benito County --San Benito Pinnacles Telephone Company proposes to bury new telephone cable within existing telephone cable route/right-of-way. Total length of cable route is twelve miles.	Neg	10/30/2002

2002109014	City of Del Mar-General Lease-Public Agency Use Del Mar, City of San Diego--San Diego Authorize the breaching of the San Dieguito Lagoon mouth and maintenance of the opening.	NOD	
2002018018	Wavecrest Beach Access Repair Del Norte County --Del Norte The restoration of a portion of an existing beach access involving repair and replacement of 200 feet of pedestrian access. This project is a cooperative project with Smith River Rancheria to allow physical access to traditional surf fishing grounds of the Tolowa Tribe.	NOE	
2002108008	Pole Line Vault Restroom Parks and Recreation, Department of --San Diego This project will install a CXT double vault restroom approximately two tenths of one mile north of state highway 78 adjacent to Pole Line Road in Ocotillo Wells SVRA. This will require a hole 14 feet wide, 18 feet long and 4.3 feet deep. A concrete pad for accessibility will require a hole 9 feet wide, 18 feet long and six inches deep. This is a highly disturbed site frequented by campers and vehicles. The unit will be placed in an area free of vegetation and will replace existing chemical toilets. Soil consists mainly of lakebottom clay with sand intrusion.	NOE	
2002108009	North End Vault Restroom Parks and Recreation, Department of --San Diego The project will install two CXT double vault restrooms near Holly Road in the northern acquisition of Ocotillo Wells CVRA to replace chemical toilets currently located in the proposed project areas. One restroom will be located adjacent to Holly Road and one approximately one quarter mile west and south of County Road S-22. Excavation will consist of two holes 14 feet wide, 18 feet long and 4.3 feet deep. A concrete pad 9 feet wide, 18 feet long and six inches deep will be constructed for accessibility at each site. This is a highly disturbed site frequented by campers and vehicles. Soil consists of badland and lake bottom clay with sand intrusion. The units will be placed in areas free of vegetation and will replace existing chemical toilets.	NOE	
2002108010	Park Bench Installation - Rough Go Trail Parks and Recreation, Department of --Sonoma Install new park bench adjacent to Rough Go trail at Annadel State Park to support visitor services.	NOE	
2002108011	Lease of New Office Space Fish & Game #2 Monterey--Monterey The Department of Fish and Game is leasing approximately 10,000 square feet of office and lab space. The space will house approximately 30 staff that perform scientific work in the area.	NOE

2002108012	Bridge Replacement Fish & Game #3 Hillsborough--San Mateo The project includes the removal and replacement of a pedestrian bridge over an unnamed creek in San Mateo County. Issuance of a Streambed Alteration Agreement Number R3-2002-0498 pursuant to Fish and Game Code Section 1603.	NOE	
2002108013	Nipomo and Haystack Creeks Debris and Vegetation Clearing Fish & Game #3 Nipomo--San Luis Obispo The proposed project will remove the man-made debris from the channel and cut and/or trim vegetation to allow a clear pathway for water to flow through the creek channels. An overhead canopy of willows and sycamores will be left in place to avoid exposing the creek to sunlight. Dead and down woody debris will be removed from the channel by collecting the debris in piles and using a thumbed excavator to reach into the channel, grasp the material, and load it into a dump truck. Issuance of a Streambed Alteration Agreement Number R3-2002-0797 pursuant to Fish and Game Code Section 1603.	NOE	
2002108014	Jericho Canyon Cleanup Order Fish & Game #3 Calistoga--Napa The Operator proposes to work under a clean up order, filed by the Regional Water Quality Control Board. During the winter, a large amount of sediment came down off of the Operator's property and continued on downstream covering a neighbor's driveway. To repair the problem, the Operator proposes to reslope the road, construct water bars, repair the outlet pipe on the upper pond located on the grounds of the residence at 5365 State Route 29, Calistoga, Napa County. Issuance of a Streambed Alteration Agreement Number R3-2002-0447 pursuant to Fish and Game Code Section 1603.	NOE	
2002108015	Russian River Bridge Bank Stabilization Fish & Game #3 --Sonoma Issuance of a Streambed Alteration Agreement Number R3-2002-0788 pursuant to Fish and Game Code Section 1601 for the following project. This is an after the fact Agreement application. The work was completed on the south side of the Russian River, at PM 19.83 along the State Route 1 in Sonoma County. In December of 2001 high water levels and heavy rains contributed to a slip-out of soil at the south abutment of the Russian River Bridge on Route 1. To protect against further failure and a possibly emergency situation the following activities were completed. A metal beam guardrail was removed and replaced approximately 0.3 meters from the from the top of bank and rock slope protection (RSP). Approximately 75m cubed of slip-out material from the failed slope was removed and 260m squared and RSP fabric placed on the cavity. The excavated area was back-filled with approximately 145m cubed of light RSP and 350m cubed of heavier RSP. All work was completed above the ordinary high water mark.	NOE	
2002108016	Crazy Horse Bridge Replacement Fish & Game #3 --Monterey The project includes removal and replacement of existing bridge. Issuance of Streambed Alteration Agreement Number R3-2002-0021 pursuant to Fish and	NOE

2002108017	South Fork Robinson Creek Restoration Project Fish & Game #3 --Mendocino The proposed restoration project consists of placing structure (wing deflectors, willow baffles and willow mattresses) to direct flows and better define the stream channel. The project will also help stabilize rapidly eroding stream banks, reduce siltation, and restore riparian cover. Issuance of a Streambed Alteration Agreement Number R3-2002-0825 pursuant to Fish and Game Code Section 1603	NOE	
2002108018	Wavecrest Beach Access Repair Del Norte County --Del Norte The restoration of a portion of an existing beach access involving repair and replacement of 200 feet of pedestrian access. This project is a cooperative project with the Smith River Rancheria to allow physical access to traditional surf fishing grounds of the Tolowa Tribe.	NOE	
2002108019	Peasley Gulch Restoration Fish & Game #3 --Santa Cruz The project is (1) removal of a concrete culvert and large construction debris from the bed and banks of Peasley Gulch, which will reduce bank erosion in the project reach, sedimentation downstream of the project reach, and improve fish passage and (2) installation of a free-span bridge. Issuance of a Streambed Alteration Agreement Number R3-2002-0824 pursuant to Fish and Game Code Section 1601.	NOE	
2002108020	San Francisquito Creek Fish Passage Project Fish & Game #3 Palo Alto--San Mateo This project involves notching three small concrete weirs using a concrete saw to facilitate fish passage during low flows. The upper weir will be notched 3-feet wide by 6-inches deep. The lower two weirs will be notched 3-feet wide by 3-inches deep. Issuance of Streambed Alteration Agreement Number R3-2002-0823 pursuant to Fish and Game Code Section 1603	NOE	
2002108021	Lawrence Outfall Structure Fish & Game #3 Sunnyvale--Santa Clara The project includes installing a storm water outfall for a parking lot at the Lawrence Caltrain Station. Issuance of a Streambed Alteration Agreement Number R3-2002-0188 pursuant to Fish and Game Code Section 1601.	NOE	
2002108022	Outlet Creek Restoration Maintenance Project Fish & Game #3 --Mendocino Maintenance removal of trash, tree limbs and excess sediment to permit passage of chinook and coho salmon and steelhead. Issuance of Streambed Alteration Agreement Number R3-2002-0796 pursuant to Fish and Game Code Section 1603.	NOE

2000041097	KCBQ Radio Broadcast Facilities San Diego County, Department of Planning and Land Use Lakeside--San Diego Salem Communications Corporation proposes to construct and operate an AM radio broadcast facility in Muth Valley on a 44.06-acre parcel. The proposed action involves the approval of the Major use Permit, construction and operation of six 199' radio towers and a transmitter building, the dedication of biological open space, and associated access improvements.	EIR	11/18/2002
2000081119	Westview Estates Lancaster, City of Lancaster--Los Angeles The site would be a private, gated residential community with 452 single family units and two parks/retention basins. The northern parcel (Tract 47583) would be developed with 289 homesites and one retention basin/park site with parking. The southern parcel (Tract 47771) would be developed with 136 homesites and one retention basin/park site with parking. Tract 47583 would have one access gate on 90th Street West and two access gates for 87th Street West, while Tract 47771 would have one access gate on 87th Street West and one from Avenue 1-4.	EIR	11/18/2002
2001022031	West Patterson Master Development Plan Patterson, City of Patterson--Stanislaus The proposed project includes light industrial, business park, commercial, and residential uses. Development would occur on two separate but adjacent sites west of downtown Patterson. The West Patterson Business Park Master Development Plan, the light industrial and business park component of the project, would be developed on an 820 acre site located outside of but contiguous to Patterson's western city boundary, and east of I-5. The Keystone Pacific Business Park is the first development application for 224-acres in the Business Park Plan. The Patterson Gardens Planned Development, the project's residential and commercial component, would be annexed to the City of Patterson.	EIR	11/18/2002
2002071002	San Diego Crossroads Redevelopment Project San Diego, City of --San Diego The proposed project is a redevelopment project. The proposed Redevelopment Project Area is located in San Diego County, in the City of San Diego. The Redevelopment Project area is approximately 1,032 acres in size and consists of three subareas (Subarea A, Subarea B, and Subarea C). The Crossroads Redevelopment Project will involve a number of subsequent actions over 20-30 year time period to implement the Redevelopment Plan. A net increase of approximately 2,421 dwelling units is estimated. Overall, non-residential square footage may slightly decrease, however, the amount of square footage will increase or decrease depending on the type of land use (commercial, industrial, institutional, etc.).	EIR	11/18/2002
2002071046	Monrovia Nursery Specific Plan and Project Azusa, City of Azusa--Los Angeles The proposed land plan for the Nursery site consists of 1,475 to 1,575 dwelling units and 30,000 to 50,000 square feet of commercial uses on 281 developable acres. An additional approximately 220 acres are reserved as permanent open space. The land plan contains three planning areas. The project description will	EIR	11/18/2002

	also include several utility and infrastructure improvements necessary to support the proposed development. The details of the infrastructure improvements will be defined during the environmental review process. At this time, a new water tank at the 1,023-foot elevation is proposed to complete the City's water distribution system. Another tank at the 830-foot elevation is also likely.		
2002101015	Buena Vista Creek Channel Maintenance District Carlsbad, City of Carlsbad--San Diego Maintain the Buena Vista Creek Channel to provide 100-year flood protection Plaza Camino Real.	NOP	11/01/2002
2002101018	Fountain Valley Regional Hospital Expansion Fountain Valley, City of Fountain Valley--Orange The project consists of a request to permit the approval of an Amendment to the Fountain Valley Medical Center Specific Plan, a Precise Plan, Conditional Use Permit, and Development Agreement for the proposed expansion of the Fountain Valley Regional Hospital. The Hospital is proposing a six-story (116" in height), approximately 128,000-square foot expansion project to be constructed adjacent to the existing main 400-bed hospital. The proposed six-story building is planned for 156 licensed in-patient hospital beds; however, 88 current in-patient hospital beds are proposed to be de-licensed as part of this project. Therefore, the number of new in-patient hospital licensed beds from the project would be 68. The project also includes 10 new emergency room treatment spaces, 269 parking stalls (for a total of 2,287 parking stalls), and relocation of the main hospital entrance to the interior of the hospital campus for proximity to the parking area. The proposed six-story hospital building is proposed to be constructed within the hospital campus property but would require the demolition of the existing utility yard, one-story maintenance shop and a portion of existing surface parking stalls which will be replaced on-site.	NOP	11/01/2002
2002101016	East Valley Water District's Arroyo Verdi Mutual Water Company Take-Over and Water System Improvement Project East Valley Water District Highland, San Bernardino--San Bernardino EVWD is proposing to incorporate the AVMWC into its water service area. Presently, AVMWC is provided water service by way of a temporary connection to the EVWD system. EVWD will install new water service facilities to provide a permanent, reliable water supply within AVMWC service area.	Neg	11/01/2002
2002101017	Sorrento Valley Trunk Sewer and Pump Station 89 San Diego, City of San Diego--San Diego Abandonment of approximately 6,200 linear feet of an eighteen-inch trunk sewer line (including the Sorrento Valley Trunk Sewer), replacement of approximately 7,857 linear feet of gravity sewer and 3,182 linear feet of force main, and construction of an underground pump station. Scope of work also includes associated improvements such as laterals, manholes, and related improvements within portions of Industrial Court, Sorrento Valley Road, Carmel Mountain Road, Roselle Street, Dunhill Street, Estuary Way, Sorrento Valley Boulevard. The purpose of the project is to remedy spills from blockages in an existing 18-inch diameter vitrified clay sewer main in the environmentally sensitive Los Penasquitos Lagoon. The proposed project would be constructed in six segments.	Neg	11/01/2002

2000032108	Santa Clara Landslide Repair Project Santa Clara Valley Water District Gilroy--Santa Clara The project is divided into two phases, near term and long term. Conservation measures include pre-construction surveys of the project site for sensitive species; an education program regarding sensitive species and their habitats for construction workers; and minimization of the ultimate project area.	NOD	
2001062120	Shaffer Road/Monarch Village Apartments Santa Cruz, City of Santa Cruz--Santa Cruz SAA R3-2002-0770 The project involves construction of an apartment community. In addition, the project includes removal of arsenic contaminated soils from the bank of Moore Creek at 1280 Shaffer Road.	NOD	
2001111075	Sidewinder Canyon Water Facilities Running Springs Water District --San Bernardino Construct and improve facilities within the project site for the production of potable water. Improvements shall include, but not limited to, the drilling of vertical and horizontal wells of various diameters and lengths, replacing undersized pipeline, installing new pipeline and booster stations, electrical service and improve and construct access roads to serve said facilities.	NOD	
2002011129	Weber Tentative Parcel Map San Diego County Department of Planning and Land Use Fallbrook--San Diego The project proposes a minor subdivision of 6.95 gross acres into three parcels measuring approximately 2 acres each for single-family residential development. Two single-family dwelling units are proposed in addition to the existing single-family residence in the southwest corner of parcels one, which will remain. Grading associated with the project will involve approximately 2,000 cubic yards of cut and fill with a maximum cut slope ratio of 1.5:1, a maximum fill slope ratio of 2:1, and a height of 15 feet. The lots will receive imported water service from the Fallbrook Public Utilities District and all lots will have on-site sewage disposal systems. Access to the project is through Olive Hill Road, an existing 40-foot private road easement. As part of the project an open space easement will be dedicated along portions of the north and northeastern property boundary to provide a buffer for the Coast live oak riparian forest offsite, adjacent to the property. <u>Documents Received on Thursday, October 03, 2002</u>			
2002052095	<p>Calleja Parcel Map Subdivision/Special Permit/Zone Reclassification Humboldt County Planning Department --Humboldt</p> <p>A Parcel Map Subdivision of a 1.7 acre parcel to result in Parcels 1 and 2 of approximately 0.32 and 1.43 acres, respectively. Parcel 1 is developed with a one-family residence; Parcel 2 is developed with a one-family residence and accessory structures. Both parcels are served by community water and sewer. Also, an exception to the 50' lot frontage requirement, an exception to allow for a reduced 20' right-of-way where 40' is required, and a Special Permit for Lot Size Modification and an exception to the 3:1 lot width to depth ratio. A Zone Reclassification to add the B-6 combining zone to both resultant parcels.</p>	NOD	
2002072112	<p>State Route 49 Grading Shoulders within the Habitat of Shaggyhair Lupine in Mariposa and Tuolumne Counties Caltrans #10 --Mariposa, Tuolumne</p> <p>The California Department of Transportation (Caltrans) proposes to grade the existing shoulders within designated environmental sensitive areas (ESAs) of State Route (SR) 49, from the community of Bear Valley in Mariposa County (KP 47.2) to the intersection with SR 120 near the community of Moccasin in Tuolumne County (KP 10.5).</p>	NOD	
2002081021	<p>Fruit/Dakota Elementary School Fresno Unified School District Fresno--Fresno</p> <p>The project involves acquiring a site for a new elementary school and developing and operating an elementary school on the site. The project would accommodate approximately 850 students. It would have classrooms, some of which might be in a two-story building; a multipurpose room; an administration building; hardcourt areas; and playfields.</p>	NOD	
2002082018	<p>Programmatic Environmental Impact Report for the County Transportation Expenditure Plan Solano County Benicia, Dixon, Fairfield, Rio Vista, Suisun City, ...--Solano</p> <p>The County Transportation Expenditure Plan will address shorfalls in funding that are needed to implement various transportation improvement projects within Solano County.</p>	NOD	
2002108062	<p>Covina Irrigating Company Chloramination Disinfection Health Services, Department of Glendora, Baldwin Park--Los Angeles</p> <p>A water quality problem arises from CIC's temporary use imported State Water Project (SWP) water. Due to the high organic carbon levels of the SWP water, the potential for disinfection byproduct formation increases with sufficient contact time with free chlorine. Due to this, CIC may have difficulty meeting the recently lowered MCLs for total trihalomethanes (TTHMs) and haloacetic acids (HAA5). CIC installed equipment to add ammonia solution to the water, along with chlorine, to form a chloramine residual to mitigate excess TTHM and HAA5 formation associated with the use of SWP water.</p>	NOE

<u>Documents Received on Friday, October 04, 2002</u>			
2002081037	Foothill Center Specific Plan and Redevelopment Project Azusa, City of Azusa--Los Angeles The proposed project will include demolition of the majority of the existing improvements and consruction of a new mixed-use development, including retail uses and residential uses, office space, and open space. The proposed activity would consist of demolishing eight existing buldings. The entire development area, approximately 22.7 acres, will be redeveloped into commercial and residential uses, which include parking facilities. Table 1 provides a statistical summary of the proposed project. Approximatesly 175,100 square feet of commercial space will include office, retail, a drugstore, supermarket, and pavilion buildings. Residential uses will consist of about 230 dwelling units, toaling 510 bedrooms. Dwelling units will be comprised of about 100 for sale town homes, and 130 garden apartments. Additionally, the proposed project will have a1.45 acre "Commons" area that will be centerpiece of the mixed-use development. The project has been designed using traditonal neighborhood design in a grid pattern to encourage pedestrian traffic.	EIR	11/18/2002
2001081134	Miramar Hills Curve Realignment and Second Main Track North County Transit District San Diego--San Diego The objective of the project is to increase reliability and reduce travel time on a segment of the existing rail corridor that currently has a single-track. The Proposed Project would do the following: 1) Realign the existing railroad track within the existing right-of-way to straighten some curves, 2) Add 3.1 miles of new second track (2.2 miles within the existing railroad right-of-way and 0.9 miles within new right-of-way), and 3) Close a 3.1-mile gap of single-tracked railroad between double-tracked railroad sections at both ends of the project.	FIN	
1995063004	Transbay Terminal/Caltrain Downtown Extension/Redevelopment Project Peninsula Corridor Joint Powers Board The proposed project has three major components: the construction of a multi-modal Terminal on the site of the present Terminal (that would be demolished) at Mission and First Streets; an underground extension of Caltrain commuter rail service from its current San Francisco terminus at Fourth and Townsend Streets to a new terminus underneath the proposed new Transbay Terminal; and establishment of a Redevelopment Area Plan with related development projects, including transit-oriented development in the vicinity of the new multi-modal Transbay Terminal. The proposed Redevelopment Area would	JD	11/18/2002

	generally be bound by Mission, Main, Spear, Folsom, Essex, I-80, Second and Minna Streets. Other subordinate components of the project include a temporary bus terminal facility at Beale and Folsom Streets to be used during construction of the new Transbay Terminal; a new, permanent off-site bus storage/layover facility; reconstructed bus ramps leading to the new Transbay Terminal; and a redesigned Caltrain storage yard.		
2002101030	Mid County Farms Monterey County Salinas--Monterey The proposed project consists of the construction of a 3,660 square foot building for the sale of agricultural produce and a 4,960 square foot farm equipment storage building. The project includes 26 new parking spaces and approximately 900 cubic yards of grading. The project site is a vacant 1.49 acre portion of a 10-acre parcel located fronting on and westerly of Highway 68 north of Hitchcock Road, just outside the City of Salinas. Existing uses of the 10-acre site include: a 9,600 square foot agriculture-related commercial building (Feed Trough Supply Store), approximately 3,700 square feet of other agriculture-related uses/structures and 29 parking spaces which occupy approximately 1.12-acre of the property; agricultural crops occupy the remaining 7.4 acres. The proposed project site is utilized seasonally for the sale of pumpkins and Christmas trees.	NOI	11/04/2002
2002061110	Ocean Harbor House Seawall Monterey, City of Monterey--Monterey The applicant proposes to remove the existing temporary riprap at the Ocean Harbor House and replace it with a seawall under the existing building. Construction access to the project site will be provided via Beach Way and the Monterey Bay beach. The construction area is under the existing building foundations. The project also involves replacement of a sewer line and installation of new stormwater pipes and dissipaters. The project requires a Temporary Encroachment Permit and Architectural Review Committee Permit.	NOP	11/04/2002
2002101020	City of Irvine General Plan Amendment, Pre-zoning, Zone Change, and Annexation (File Nos: 47782-GA, 47785-ZC) Irvine, City of --Orange The project includes the following: 1) Annexation, General Plan Amendment and Pre-zoning for the unincorporated Planning Area #51 (the former Marine Corps Air Station El Toro); 2) Annexation of the unincorporated portion of Planning Area #35 (James A. Musick Branch Jail and the Irvine Ranch Water District Parcel); and 3) General Plan Amendment and Zone Change for Planning Area #30 which is presently in the City of Irvine. This Plan responds to the decision by the Navy to sell a majority of the MCAS El Toro land on a public auction basis. Because the land will be sold to privately interests, certain portions of the project are designated to allow alternative uses which will produce sufficient revenues to permit the development of the Great Park and other public uses contained in the Plan.	NOP	11/04/2002
2002101026	Mariposa County Composting Solid Waste Facility Mariposa County --Mariposa Mariposa County intends to construct a mixed solid waste composting facility, to serve the waste disposal needs of Mariposa County residents and visitors. The primary goals of this project are to meet to State of California mandate of 50%	NOP	11/04/2002

	diversion from landfills, and to demonstrate a high level of natural resource sustainability by operating a mixed solid waste composting facility to convert Mariposa County's solid waste to useful and marketable resources. A closed vessel composting facility and process has been designed to treat 15,000 tons of mixed solid waste per year. The plant will perform this intensive composting in three steps: 1) receiving and preparation of the waste material; 2) composting and 3) curing and refining.		
2002101029	Cingular Wireless Cell Site Number SM-011-01 Rolling Hills Estates, City of Rolling Hills Estates--Los Angeles The project applicant is proposing to install a new cell site base station at 27120 Palos Verdes Drive East in the City of Rolling Hills Estates. The cell site base station would be located within the public right-of-way. Base stations typically consist of two parts: the electronic transceivers (called radios or cabinets) that are connected to the traditional wired telephone lines, and the passive antennas that send the wireless signals created by the radios out to be received by individual subscriber units. The cabinets are typically located at ground level and are connected to the antennas by coaxial cables about 1 inch thick. The proposed cell site includes three directional panel antennas (type=EMS1 RR6518-00DP) which would be mounted on the existing 45-foot utility pole at an effective height of 23 feet above ground. The maximum effective radiated power in any direction would be 430 watts.	NOP	11/04/2002
2002101031	San Juan Oaks San Benito County San Juan Bautista, Hollister--San Benito General Plan amendment from Agricultural to Commercial and residential. Zone change from Agriculture to Residential and Commercial. Tentative subdivision map for 183 residential units.	NOP	11/04/2002
2002102025	Hazel Avenue Corridor Widening Project Sacramento County --Sacramento The proposed project is to widen Hazel Avenue from 4 to 6 lanes from US 50 to Madison Avenue. Alternatives include a four-lane option.	NOP	11/04/2002
2002101021	Community Character Implementation Program Encinitas, City of Encinitas--San Diego The project consists of amendments to the Local Coastal Program Implementation Plan and Municipal Code to help maintain the unique character of the City of Encinitas and its five distinct communities. The proposal would result in a series of changes to related development standards and design guidelines.	Neg	11/04/2002
2002101022	St. Williams Church San Diego, City of -- Site development permit and coastal development permit for demolition, remodeling, and additions to an existing church facility. Total building square footage would increase 23% from 54,740 to 71,000 square feet. A 3,600 square foot modular building, a 6,560-square-foot parish center, and a 2,400-square-foot rectory would be removed. An education center would be expanded 107% from 17,000 to 38,992 square feet, a social hall would be expanded 20% from 12,000 to 15,000 square feet, a church would be expanded 6% from 15,00 to 17,000 square	Neg	11/04/2002

The bore holes will be sampled every 5 feet starting at 80' to approximately 120'. The casing will have a 6" diameter.	NOE	
2002108087	Pesticide Mixing Area, Fort Hunter Liggett: Proposed Plan for Remedial Action Plan/Record of Decision Toxic Substances Control, Department of --Monterey The proposed alternative for remediation of the Pesticide Mixing Area (PMA) is the excavation and offsite disposal of approximately 250 cubic yards of pesticide contaminated soil. The area around the PMA will be temporarily fenced to secure the construction zone and soil storage area. Standard engineering/construction practices, such as the use of water spray, will be used to control potential dust emissions during excavation activities. Both perimeter air monitoring for public safety, and personal air monitoring for worker safety will be conducted. Excavated soils will be placed into a designated, plastic lined, soil storage area. Soils will be covered with plastic, and temporarily stockpiled while the results of waste characterization tests are pending.	NOE	
2002108088	Three-year Variance Renewal for San Luis Obispo County's Conditionally Exempt Small Quantity Generator Toxic Substances Control, Department of --San Luis Obispo Issuance of variance from hazardous waste manifesting and transportation requirements for San Luis Obispo County's participating CESQGs. The variance would allow transportation of up to 100 kg of hazardous wastes by participating CESQG businesses to household waste collection facilities (HHWCF) are allowed to accept up to 100 kg of hazardous waste from CESQGs in a calendar month. This variance would allow the CESQGs to transfer the allowable monthly limit at one time, rather than make several trips. The HHWCFs provide an appropriate and safe means of disposal for hazardous waste generation by small quantity generators.	NOE

2002108095	Old Town San Diego Replace Damaged Lattice Under Back Porch (02/03-SD-15) Parks and Recreation, Department of --San Diego Project consists of replacing damaged lattice at the Racine-Laramie Historic Structure within Old Town SHP. Lattice will be replaced with "in kind" materials consistent with the Secretary of Interior's Standards.	NOE	
2002108096	2002 Summer Allocation Carryover Water Program Water Resources, Department of -- In light of the statewide dry conditions in California, the Department of Water Resources desires to provide temporary storage for individual water contractors of State Water Project 2002 allocated Table A water in San Luis Reservoir during 2003 as long as storage space is not needed for other SWP purposes. The long-term State Water Project contractors would be allowed to take delivery of up to 5% of their approved 2002 SWP allocated Table A water in 2003. The amount of water is expected to be up to 200,000 acre-ft. The contractors would be required to take delivery of this water no later than December 31, 2003. If this program is not implemented, the contractors may take full delivery of their 2002 allocated Table A water during 2002. Allocated water not taken by the end of the year becomes part of the 2003 overall SWP water supply. Allowing delivery of this water during 2003 will provide greater operational flexibility in the management of the contractors' limited water supplies. The 2002 Summer Allocation Carryover Program is separated from and in addition to other carryover programs afforded by the long term water supply contracts, including the 2003 Turnback Pool Program. Delivery of carryover water under the 2002 Summer Allocation Carryover Program provided they do not sell 2002 allocated Table A water in the 2003 Turnback Pool Program.	NOE	
2002108097	Streambed Alteration Agreement concerning Thompson Creek Fish & Game #5 Poway--San Diego The Operator proposes to alter the streambed and/or associated riparian habitat for the purpose of maintaining a line-of-sight across Thompson Creek for Fairway 6 and a line-of-sight across Thompson Creek for Fairway 7, within the Maderas Golf Course. Trimming of vegetation may occur within the line-of-sight zones if conducted with hand held tools, and no vehicles are permitted within the line-of-sight zones or within adjacent sensitive habitats (willow woodland and sandy stream bottom). Riparian habitat within the line-of-zone growing taller than six (6) feet may be trimmed to (but not less than) a height of six (6) feet, and branches growing into the line-of-sight zones from adjacent riparian habitat may be trimmed back at the boundary lines of the line-of-sights. This Agreement does not authorize thinning of native vegetations/habitat.	NOE

NOP	11/05/2002
2002102027	Southwestern Marin Parklands Comprehensive Transportation Management Plan Marin County --Marin The proposed Management Plan will include access improvements for non-auto access to the park sites, and possibly a reservation system to access some or all of the affected parkland areas. The primary purpose of the plan will be to: reduce congestion on local roadways for residents and visitors, enhance the visitor experience including access to the parks, protect ecological resources, and protect park resources. The access improvements being considered include: A visitor intercept facility, where visitors will be able to transfer from auto or other modal choices to a parklands access facility. The intercept facility is to include restrooms, a sheltered waiting area, and physical staff presence. A park and ride facility specifically for parklands access. The park and ride facility will be sized based on projected growth in the Bay Area and the number of people that are projected to drive to the intercept facility site. The parklands access facility may include a shuttle bus, a funicular lift type facility, and/or bicycles.	NOP	11/05/2002

	septic and leach field for domestic water; j) gate and entry structure; k) road exception for disturbance of slopes greater than 30 percent for road improvements; l) road and access improvements to facilitate the winery development.		
2002102034	Final Closure of the Cummings Road Landfill Humboldt County Waste Management Authority Eureka--Humboldt Final closure of the existing Cummings Road Landfill (a municipal solid waste disposal site) and postclosure maintenance. The site will be regraded, compacted, and covered with a highdensity polyethylene membrane, subsurface drainage system, and protective vegetative cover. Post closure maintenance systems include groundwater, surface water and air monitoring, road, ditch, and sedimentation basin repairs and gas and leachate extraction system operations.	Neg	11/05/2002
2002102035	Old Page Mill Trail Repair Project Midpeninsula Regional Open Space District --San Mateo The project consists of repairs to storm damaged portions of Old Page Mill Trail, an unpaved recreational trail located at Skyline Ridge Open Space Preserve. The storms caused two large washouts, a debris slump, and other damage to several sites along approximately 1,800 feet of existing trail. The proposed project includes the replacement of an existing undersized culvert with a larger culvert, reconstruction of the two washouts, and debris slump clearing. In total, the project requires grading of approximately 9,000 sf. (0.2 acre).	Neg	11/05/2002
2002102036	Verizon California Coastal Development, Conditional Use and Special Permits Humboldt County --Humboldt Coastal Development and Conditional Use Permits are required for the development of 57' tall lattice tower and three eight (8) foot diameter microwave dish antennas. They will be sited adjacent to the existing 49 foot tower and microwave relay facility operated by Verizon (formerly West Coast Telephone) as part of a common carrier fixed point-to-point microwave service. The new tower and microwave installation are necessary for system reliability and quality. The facility routes calls along an existing telecommunication network consisting of five towers relaying microwave signals between Eureka and Crescent City. This tower and the existing tower are for telephone service, not cellular or wireless communications. Verizon owns the 22,500 sf property on which this development is proposed. These two towers and their existing appurtenant equipment building will be enclosed within the existing 2,475 sf. fenced area secured by a locked gate and barbed wire. The proposed tower will not be lighted.	Neg	11/05/2002
2002102037	Premier Recycling Facility (File No. ER01-04-002) San Jose, City of San Jose--Santa Clara The project consists of a State Solid Waste Facility Permit to allow (1) installation of a truck scale, (2) an increase in processing volumes from the current 150 tons/day to the proposed tonnage of up to 300 tons/day of non hazardous solid waste, and (3) extended hours of operation from the current hours of Monday through Friday 6:00 a.m. to 6:00 p.m., to the proposed hours of Monday through Saturday 3:00 a.m. to 4:00 p.m., at an existing solid waste transfer/processing facility on a 2.0 gross acre site in the LI Industrial Zoning District. 2002108105	Pond 3 Emergency Repair and Breach, Napa-Sonoma Marshes Wildlife Area Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Napa In response to discovering an intentional breach in the levee between Pond 3 and South Slough dug by unknown individuals, DFG proposes actions that will protect an existing water control structure (siphon) and relieve hydraulic pressure on the breach by opening another breach to Pond 3. The primary purpose of the emergency project is to protect the siphon structure adjacent to the breach by placing and driving sheetpiles through the existing Pond 3 levee. In order to relieve some of the hydraulic pressure on the breach near the siphon, a second	NOE

	(and possible third) breach near the junction of the Napa River and Dutchman Slough (and on South Slough) will also be created. The siphon is the main conduit of water between Ponds 2 and 4 and is extremely important in the day-to day operations of the water delivery system and ultimately future salt pond restoration efforts.		
2002108106	Bidwell Low Water Boat Launch Maintenance Water Resources, Department of --Butte The paved boat ramps at Lake Oroville will be unusable later this fall due to low water conditions, facilitating the need to use low water boat launches. Maintenance activities will be conducted to prepare the boat launch for public use, these activities will include minor grading and graveling of an existing dirt road and adjacent turn around, and an existing asphalt road used for launching. The public will be the primary beneficiary as no other developed launching area will be available. Project work will be conducted during the period from 10/10/02 through 1/31/03, depending upon lake levels.	NOE

2002104001	Linac Coherent Light Source at the Stanford Linear Accelerator Center U.S. Department of Energy Menlo Park--San Mateo The DOE proposes to construct the LCLS at SLAC. The LCLS would be the world's first x-ray free electron laser (FEL) that would produce x-ray laser pulses that are billions of times more intense than those from existing synchrotron sources. The LCLS would take advantage of the existing infrastructure at SLAC and would install a new photoinjector at sector 20 of the 30 sector linear accelerator (linzc), the last kilometer of the linac would be modified to accelerate the electrons to be used in the LCLS. A 120 meter long undulator magnet would be fabricated and installed in the existing Final Focus Test Beam facility and two new experimental halls would be constructed. The LCLS would further DOE's mission of planning, constructing, and operating user facilities to provide special scientific and research capabilities to serve the needs of U.S. universities, industry, and federal laboratories.	EA	11/08/2002

	Community Plan Land Use Allocation Map designation on the subject site from "Agricultural Development Reserve: to "Category 2B".		
2002041025	<p>Redevelopment Area Expansion, Detachment, Annexation, Automotive Test Course</p> <p>California City</p> <p>California City--Kern</p> <p>The proposed project consists of four distinct components: (1) the expansion of the existing City redevelopment area; (2) the detachment of three disjunct parcels of land from the City into the unincorporated area of the County; (3) the annexation of land from the unincorporated area of the County into the corporate boundaries of the City; and (4) the construction and operation of an automotive test course within the land to be annexed into California City's corporate boundaries. The City covers approximately 204 square miles in the southeastern portion of the County approximately 60 miles southeast of downtown Bakersfield. (Approximate acres and square miles are reported herein to the nearest whole acre or square mile.) The four proposed major components are detailed as follows:</p>	FIN	11/06/2002
2002102040	<p>Globe Lane Planned Development Rezoning (File No. PP02-08-226)</p> <p>San Jose, City of</p> <p>San Jose--Santa Clara</p> <p>The objective of the proposed project is to provide housing opportunities of relatively high densities at an infill location in San Jose which is adjacent to an existing transit corridor. The project would meet this objective by rezoning the project site from R-MH Residential Mobilehome Park, HI Heavy Industrial, & LI Light Industrial to A(PD) Planned Development Zoning to allow the construction of 680 for rent apartments, 150 for-sale townhomes, 17,700 square feet of retail, and a two-acre public park. The buildings would range from 2 1/2 to 4 stories in height with surface and underground parking. The project would require the demolition of existing uses on the site, including commercial and industrial uses and a 54-mobile home park.</p>	NOP	11/06/2002
2002102042	<p>U.S. 50 Camino Freeway Conversion Project</p> <p>Caltrans #3</p> <p>--El Dorado</p> <p>The proposed project consists of the conversion of a 7-kilometer (km) (4.3 mile) section of United States Highway 50 (US 50) from an expressway to a freeway east of Placerville. The freeway conversion would be accomplished by replacing existing intersections and driveways with an interchange connecting a network of frontage roads and/or local roads. The purpose of this project is to improve safety and traffic operations on U.S. Highway 50. The elimination of at-grade intersections and driveways will reduce the potential for accidents. A median barrier is also being proposed along the project's entire length, which will reduce the severity of accidents. Safety will also be improved by widening inside and outside shoulders on U.S. Highway 50.</p>	NOP	11/06/2002
2001022049	<p>Tentative Map Application No. 2001-01 - Del Rio Vista (Revised)</p> <p>Stanislaus County</p> <p>Modesto--Stanislaus</p> <p>This is a re-submittal of a revised request to create 78 lots with an average lot size of 20,400 +/- square feet and one storm drain pond/park.</p>	Neg	11/06/2002

2002104044	Cherry Avenue General Plan Amendment/Rezoning Greenfield, City of Greenfield--Monterey The proposed project consists of General Plan Amendment/Rezoning for 17 acres north of and abutting Cherry Avenue, between El camino Real and Highway 101, to create a residential subdivision on 13.8 acres of the property. A rezoning for the remaining 3.2 acres rom "M" Light Industrial to "H-C" Highway Commercial is also requested. The project does not include development plans for the proposed "H-C" rezoning; however, for the purposes of the environmental analysis, it was assumed that the this area would be developed at 70,000 square-feet, the maximum allowed by the highway commercial designation. The proposed residential subdivision includes 48 single-family lots of 6,000 square feet each, a 25,000 square-foot park, a storm water detention pond, and three lots on the north side of the property intended for approximately 44 multi-family units. 2000032065	Vintage Greens Subdivision Windsor, City of Windsor--Sonoma As part of the mitigation required for the Vintage Greens subdivision, Phil Trowbridge/Demada L.L.C. proposes to construct inlet and outlet structures for a flood control bypass conduit around a portion of Windsor Creek which is constricted and prone to causing upstream flooding. At the inlet a broadcrested rock weir, approximately 110 feet long, will prevent low flows from entering the bypass, yet still provide flood protection at 10-year events and greater. The downstream end of the bypass channel will also be armored with rock to prevent erosion. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0670 pursuant to Section 1603 of the Fish and Game Code to the project operator, Phil Trowbridge /Demada, L.L.C.	NOD	
2000042051	Lower Guadalupe River Project Santa Clara Valley Water District San Jose--Santa Clara Provide flood protection through levee improvements, vegetation maintenance, flood walls, and sediment removal in Santa Clara County, along Guadalupe River between I-880 and the UPRR Bridge in Alviso. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0821 pursuant to Section 1601 of the Fish and Game Code to the project operator, Santa Clara Valley Water District. The Subarea Plan will provide specific assurances that much of the remaining natural habitat within the City is preserved and managed to provide for the survival of sensitive plant and wildlife species. The MSCP Subregional Plan, adopted in 1997, set the framework for the assembly and management of a habitat preserve for biological resources within the southwestern portion of San Diego County. A Final EIR/EIS was prepared for the MSCP Subregional Plan and associated Subarea Plans, including a Draft Subarea Plan for the City of Chula Vista. Since certification of the Final EIR/EIS, the City of Chula Vista's Subarea Plan has been revised. The purpose of the Supplemental EIR and EA is to analyze the changes in the Subarea Plan in light of the analysis presented in the Final EIR/EIS, and to further analyze local discretionary actions that are required to implement the Subarea Plan.</p>	EIR	11/22/2002

	20; 8 firefighters and 4 administrative staff, and 8 shift-change firefighters. The project will be implemented in three phases.		
2001112072	GPA-01-03/Prezone 01-01/Annexation 01-09 (Sterling University Housing) Chico, City of Chico--Butte Proposed amendment of the City of Chico general plan land use designation and prezoning for parcels and annexation of these parcels into the city limits. The existing manufacturing and warehousing general plan designation would be changed to Medium-High Residential (14-22 units/acre) and the existing prezoning would be changed from ML to R3. A 320-unit apartment complex is proposed on two of the parcels (20 acres). No development is currently proposed for the remaining two parcels.	FON	
2002101047	Alpine 10 Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project is to subdivide 30.9 acres into 10 residential lots ranging from 2.02 to 6.68 acres accessed by a 40-foot wide private road easement off of Tavern Road. A total of 9.64 acres of the 30.9 acres of land is proposed as open space for the protection of biological and archaeological resources. The proposed biological open space easement is for the protection of Southern Coast Live Oak Riparian Forest and adjoining areas of Coastal Sage-Chaparral Scrub vegetation. An existing open space easement dedicated for the protection of archaeological/cultural resources located on Lot 10 has been found to be less than significant under CEQA and RPO and is to be vacated. Significant archaeological/cultural resources found on Lots 1 and 2 are to be preserved in an open space easement. The project proposes individual septic systems and will be served by the Padre Dam Municipal Water District, the Alpine Fire Protection District, and Alpine Union School District and the Grossmont Union High School District.	Neg	11/07/2002
2002101048	Taylor Estates Project (D-5-01, T-2-01, C-10-01) Oceanside, City of Oceanside--San Diego The proposed project is a 28-unit single-family detached subdivision on a 30.1-acre site.	Neg	11/07/2002

2002108173	Bridgeport Reservoir Marina Dredge and Disposal Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Mono Maintenance dredging in marina during dry conditions.	NOE	
2002108174	Alliance Road/30th Street Mainline Sewer Extension Arcata, City of Arcata--Humboldt The project involves the extension of the City's wastewater collection mainline from Spear Avenue to the Arcata Mobile Home Park which serves as housing for predominantly low income residents. The project is in response to a Notice to Abate issued by the County of Humboldt. Four of the Park's five aging septic systems are failing; one has failed. Examination by the City of Arcata's Public Works and Environmental Services Departments indicate abandonment of the septic systems as the only feasible solution. The project will mitigate an impending health hazard as well as reduce groundwater contamination.	NOE	
2002108175	Replacement of Existing Storm Drain Pipe Fish & Game #3 --Sonoma Issuance of a Streambed Alteration Number R3-2002-0513 pursuant to Fish and Game Code Section 1603.	NOE	
2002108176	Corrigan Entry Bridge Fish & Game #3 Los Altos Hills--Santa Clara SAA R3-2002-0405 Removal and replacement of an existing culvert and bridge structure. The project includes restoring the creek bed to its natural condition and constructing a new bridge with footings outside the banks.	NOE	
2002108177	Replacement of Failed Culvert Installation of Three Small New Culverts Fish & Game #3 Santa Rosa--Sonoma Issuance of Streambed Alteration Agreement Number R3-2002-0703 pursuant to Fish and Game Code Section 1603.	NOE	
2002108178	Russian Gulch Bridge Maintenance Fish & Game #3 --Sonoma SAA R3-2001-0889 Russian Gulch Creek at the Highway 1 Bridge, in the County of Sonoma. Russian Gulch Creek is an intermittent stream that flows to the Pacific Ocean. The proposed work is routine maintenance consisting of the removal of accumulated silt, gravel and other materials from under the bridge. Some riparian vegetation has established on a gravel bar in the channel. This vegetation will be removed to provide for an open channel condition. The estimated amount of material to be removed is 200 cubic yards. Removal will be done with a rubber tired loader and trucks working within the streambed but only when the stream is dry. There is an existing access road to the creek approximately 150 feet downstream from the bridge that will be used for the equipment. All materials removed from the bed will be transported off site.	NOE

2002061045	Unit G Parallel Pipeline and Denk Reservoir Inlet/Outlet Project Olivenhain Municipal Water District Carlsbad, Encinitas--San Diego OMWD is proposing to construct and operate a new, 18- to 30-inch diameter, approximately 2.4-mile-long potable water pipeline in northern San Diego County. The new pipeline would improve OMWD's ability to deliver water from the Olivenhain Water Treatment Plant; provide redundant water source options within OMWD; provide for better water service circulation through Denk Reservoir; and provide capacity sufficient to serve western portions of OMWD at buildout with water treated at OMWD's Olivenhain Water Treatment Plant.	EIR	11/25/2002
1996042073	Forest Meadows Units 3 and 3A Calaveras County Murphys--Calaveras The project evaluated is a proposed General Plan Amendment (96-01), Zoning Amendment (96-06) and Tentative Subdivision Map (96-560) to allow development of 313 single family residences on 276+ acres. The proposed project site is adjacent to, and would be an extension of, the existing Forest Meadows residential development.	FIN	
2001121016	Harvard-Westlake Middle School Campus Improvement Project Los Angeles City Planning Department Los Angeles, City of--Los Angeles Conditional Use to permit the utilization of approximately 4 acres directly adjoining the existing site in addition to the existing approximately 11 acre campus site, construction of two new classroom buildings, expansion of two existing buildings and the demolition of six buildings for a net floor area increase of approximately 85,000 square feet with a total project area of 235,000 square feet. The new and expanded facilities would include a library, classrooms, performing and fine arts facilities, athletic facilities, administrative offices, and a new auditorium that would seat 950, a 250-seat net increase above existing campus facilities.	NOP	11/08/2002
2002101049	Tentative Tract Map Numbers 30463, 30732, 30733, 30647 Banning, City of Banning--Riverside The proposed project includes the development of 449 single-family residential dwelling units on a 174.2 gross-acre site generally located west of Sunset Avenue, south of Lincoln Street (prolonged westerly from Sunset Avenue), east of the northerly prolongation of Highland Home Road, and north of Westward Avenue (prolonged westerly from Sunset Avenue). Development includes the processing of four Tentative Tract Maps identified as TTM 30643 on 33.5 acres proposing 120 dwelling units, and TTM 30732 on 34.7 acres proposing 113 dwelling units, TTM 30733 on 32.3 acres proposing 110 lots, and TTM 30647 on 22.8 acres proposing 105 dwelling units. Development of the subject site will include an amendment to the City of Banning's General Plan Circulation Element that includes extensions of adjacent surrounding roadways, south of the I-10 Freeway. The proposed extension of Lincoln Street and Westward Avenue through the project site will require the construction of six bridges (tentatively set as corrugated metal arched culverts), two each over Pershing Creek, Smith Creek and Highland Wash. 2002102054	2526 Durant Apartments Berkeley, City of Berkeley--Alameda The applicant proposes to demolish the existing Structure of Merit to allow the construction of 31,630-square foot five-story, mixed-use, commercial-residential building on an existing 10,377 square foot parcel. The ground floor of the building would have 4,008 square feet of commercial floor area and a 26-space parking garage; floors two through five would have a total of 44 dwelling units, including six affordable units.	EIR	11/25/2002
1991033042	Redwood Landfill, Inc. Access Bridge Marin County Upgrade of the existing landfill access with construction of a bridge structure.	FIN	
2001104011	Truckee River Water Quality Settlement Agreement-Federal Water Rights Acquisition Program U.S. Bureau of Indian Affairs --Nevada Water Quality Settlement Agreement (WQSA) is an effort to address Truckee River water quality conditions by directly increasing river flow during the period of the year usually characterized by low flow. WQSA obligates the United States to allocate a total of \$12 million to acquire Truckee River water rights. Whenever possible, water associated with such rights will be stored and accumulated in Truckee River reservoirs managed by BOR. Stored water is anticipated to be released primarily during periods of low flow (normally July, August, and September). The resulting flow augmentation is expected to increase the nutrient assimilative capacity of the Truckee River and dilute non-point source pollutants. Federal funds for the program have been fully appropriated by Congress and are managed by Bureau of Indian Affairs (BIA). BIA has contracted the acquisition program with the Tribe, and the Tribe has, in turn, subcontracted with a water rights acquisition contractor to acquire water and water rights. Water and water rights acquired by the Tribe as part of WQSA is expected to be held in trust by the United States for the Tribe.	FYI	
1998121004	Garnet Avenue Bridge - Seismic Retrofit San Diego, City of San Diego--San Diego Council Approval of Capital Project No. 530389 to allow for the seismic retrofit of the Garnet Avenue Bridge at Rose Creek. The project would construct two 42 foot deep, 5-foot diameter Cast-in-Drilled-Hole (CIDH) piles, and install traverse shear keys and longitudinal bumpers beneath the bridge. The project is located at the Garnet Avenue Bridge over Rose Creek, approximately one mile west of the interstate 5.	Neg	11/12/2002
2002101055	Hardy Grading Permit; B011558-002 San Luis Obispo County --San Luis Obispo The applicant is requesting to: grade for a driveway and single family residence that will result in the disturbance of approximately 25,000 square feet, and requires crossing a minor intermittent stream that is tributary to the Salinas River. 2002101056	Allen Minor Use Permit D010376P San Luis Obispo County --San Luis Obispo Construct a second residence over 500 feet away from an existing residence.	Neg	11/12/2002
2002101057	Onaga/La Contenta Pipeline Joshua Basin Water District --San Bernardino The proposed pipeline project would be designed and constructed by the Joshua Basin Water District as an extension of their existing domestic water distributions system. There are currently no regular water deliveries to residences that would be served by the project. The pipeline would be 12-inch PVC and would connect to an existing 12-inch ductile iron pipeline in Troll Canyon Road at its intersection with Navajo Trail. From the existing line at the intersection of Troll Canyon Road and Navajo Trail, the alignment runs, approximately 700 feet to the west, then north on an unnamed road approximately 700 feet top Onaga Trail, then westerly for approximately 1,300 feet to La Contenta Road. The pipeline would run north and south of Onaga in La Contenta Road for a total of approximately 1,400 feet. The total length of the proposed pipeline is 4,100 linear feet. The pipe would be buried approximately three feet below the surface in existing road alignments and an existing utility corridor that crosses a natural drainage located within the pipeline alignment.	Neg	11/12/2002
2002101058	Canon View Trail Los Angeles County Department of Public Works --Los Angeles The proposed project involves the construction of a new retaining wall in front of the existing retaining wall that is located along the back property line of House No. 542 Canon View Trail. It will be comprised of soldier beam piles with prestressed concrete panels. The total length of the wall will be approximately 135 feet, with a concrete panel height of about 10 feet. Approximately 83 feet of berm will also be reconstructed. The project also includes resurfacing the roadway at both Canon View Trail and Circle Trail.	Neg	11/12/2002
2002101059	Project No. 02-003/Tract Map No. 53706 Department of Regional Planning Long Beach--Los Angeles This is an application to subdivide the subject property into 88 three-bedroom condominium units in 27 building structures. A recreation room of approximately 750 sf. will be available for the residents. In addition to 176 covered parking spaces for residents, 27 guest parking spaces will be provided at various locations on the property. A Conditional Use Permit is also required for this development due to the proposed residential development is located on a property zoned commercial. A lotline adjustment application is also submitted to reconfigure the lot to exclude one of the medical buildings from this tract.	Neg	11/12/2002
2002101060	San Dieguito Groundwater Recharge and Recovery Olivenhain Municipal Water District --San Diego The Olivenhain Municipal Water District (OMWD) proposes to develop a water injection and recovery system in the San Dieguito Groundwater Basin (basin) at the Morgan Run Golf Course and Resort (Morgan Run). The project would improve water quality, maximize utilization of groundwater storage capacity, and increase the dry-year groundwater supply with the basin.	Neg	11/12/2002

2002101065	Castroville-Elkhorn Bicycle/Pedestrian Path Monterey County Public Works Department --Monterey The proposed project consists of a Class I and III bicycle/pedestrian path in north Monterey County, which is funded by Federal Highway Administration. Caltrans and also by Local agencies. As a Class I path, it will be separated from the roadway, and continue north on the east side of Castroville Boulevard to Del Monte Farms Road. At Del Monte Farms Road, the path becomes a Class III path, consisting of signage along existing roadways. Via Del Monte Farms Road, the path will continue north on Ormart Road to its intersection with Castroville Boulevard, and then continue north along Elkhorn Road from Castroville Boulevard to the Elkhorn Slough Visitor Center. The southernmost terminus of the bike path is approximately 650 feet north of the intersection of Castroville Boulevard and Highway 156. However, the picycle/pedestrian path will ultimatley connect into Castroville Boulevard, but the connection of the path is uncertain at this point due to funding and right of ways. Monterey County Public Works has indicated that the bicycle path may eventually cross the railroad tracks and connect to the new replacement bridge at Highway 156, however, the exact loaction and associated impacts of the connection are speculative and are not	Neg	11/12/2002

2002031030	<p>Mill Creek Diversion Project Orange County Water District Corona--Riverside SAA #6-2002-91 The applicant proposes to construct diversion project within Mill Creek in order to divert up to 80% of the flow into Splatter "S" Ponds. The water will be retained through wetlands for water quality enhancement, particularly nitrate removal. The diversion structure will consist of a concrete footing that will support a rubber dam inflatable to 1.7 yards high, two stainless steel sluice gated on the east side measuring 3 feet by 5 feet, and a 1,000 foot length of 20-30 inch diameter pipe to deliver gravity flow from the diversion to the existing conveyance channels for the OCWD wetlands and Splatter "S" Ponds. Water from the diversion structure will enter the pipe at an elevation of approximately 509 feet and discharge into the northern conveyance channel at an elevation of 505 feet. A bypass pipeline will maintain at least 20% of the surface flow in Mill Creek, and the 1,000 feet of pipeline will convey flows along an existing dirt road to an open ditch and the wetlands. Water behind the diversion structure will not impound high enough to overspill the creek banks.</p>	NOD	
2002031048	<p>Church of Jesus Christ of Latter Day Saints (LDS), Newport Beach Temple Newport Beach, City of Newport Beach--Orange The project involves the construction and operation of a place of religious worship on an 8.65 acre site within the Bonita Canyon Planned Community. The Temple will be a 17,575 square foot building sited in the center of the property, surrounded by 5.5 acres of gardens, walkways, and water treatments in the western portion of the project site and parking in the eastern and northeastern perimeters of the site. The project includes a 99'-9" foot high steeple.</p>	NOD

2002092028	Glass Beach Site Remediation Fort Bragg, City of Fort Bragg--Mendocino The project consists of a business center and public access improvements. Business center, construction, operation, and maintenance of up to 232,400 sf. of business-serving space in five buildings; parking and internal circulation; landscaping; and post-construction stormwater controls. Public access: improvement, expansion, and maintenance of existing parking lot, trail connections, public plaza, and landscaping.	NOD	
2002109038	Fing Tmber Harvest Plan, #4-02-45/ELD-22 Fish & Game #2 --El Dorado The California Department of Fish and Game is executing a Lake and Streambed Agreement number R2-2002-476 pursuant to section 1603 of the Fish and Game Code to the project applicant, Greg Wheeldon, Wheeldon Logging. A temporary Spittler watercourse crossing will be installed using a culvert and logs. It will be removed by October 15.	NOD	
2002109039	Woodcreek East - Water Course Crossings and Utility Crossing Fish & Game #2 Roseville--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2002-231 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Tom Kollen representing Highland Communities. Project proposes to construct three rail car crossings for a general plan amendment, a rezone, and a development agreement. The streambed alteration agreement and this notice pertain only to the project described above.	NOD	
2002109040	San Luis Obispo Creek Sediment and Gravel Removal San Luis Obispo, City of San Luis Obispo--San Luis Obispo SAA R3-2002-0590 The proposed project would remove approximately 400 cubic yards of gravel from the west barrel and from just upstream of the bridge. A bobcat would be used to remove the gravel. The overall depth of gravel in the west barrel and upstream channel would be lowered by approximately two to three feet to a level just below the existing high water mark. A small plug of gravel may be left at the downstream end of the west barrel. This gravel plug would wash out during high flows. The creek flows through San Luis Obispo, and passes under a highway bridge at the Marsh Street ramps to State Route 101.	NOD	
2002109041	Lefholz Property Fish & Game #3 Portola Valley--San Mateo The project involves removing concrete rubble, asphalt, and construction debris from Corte Madera Creek at 10 Ciervos Road in Portola Valley. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0662 pursuant to Section 1603 of the Fish and Game Code to the project operator, Eric Lefholz. 2002108227	San Anselmo Creek Storm Drain Pipe Installation Fish & Game #3 Ross--Marin The project is the extension of an existing 36 inch storm drain, an additional 20 feet to the edge of San Anselmo Creek, located at 51 Sir Francis Drake Boulevard in Marin County. The pipe will be backfilled with 3/4-inch drain rock within a six (6)-inch minimum backfill space around the storm drain. Approximately 200 square feet of bank will be disturbed to place the pipe. About 20 cubic yards of grouted rock rip-rap will be placed on the gently sloping bank behind the creek bank toe. There will be no work or equipment in the creek bed. No trees in the vicinity will be impacted or removed. Silt fences will be used to ensure no construction debris enters the channel. Issuance of a Streambed Alteration Agreement Number R3-2002-0677 pursuant to Fish and Game Code Section 1603.	NOE	
2002108228	Mission Creek (Zanja) Storm Drain Improvement Fish & Game Eastern Sierra-Inland Deserts Region San Bernardino--San Bernardino The project proposes to alter the streambed to install a 24-inch storm drain, which will be approximately 800 feet long, with its outlet into Mission Zanja Channel. The outlet construction will involve excavation of the bank and installation of a 24-inch RCP outlet pipe, construction of a grouted rip rap outlet pad, construction of a 4-foot deep cut-off wall, installation of a reinforced concrete headwall, and reconstruction of existing rail and wire revetment to connect to the new headwall. Upon completion of the installation of the pipe, headwall, outlet pad, cut-off wall, and revetment, the channel bank and bottom will be backfilled, compacted, and restored.	NOE	
2002108229	Silver Lake Dam Repair Project El Dorado Irrigation District --Amador The project involves minor repairs to a portion of the upstream face of the existing Silver Lake Dam structure. Activities will include removal of the existing shotcrete surface, placement of a lining material for containment, placement of crushed rock over the lining, and finishing the surface with a new reinforced shotcrete surface. At the toe of the sloped surface along existing boulders, a footing will be constructed to support the new materials. The shotcrete will also be sealed along the existing rock buttress of the dam. The work area is surrounded by existing rock or concrete dam structure. The El Dorado Irrigation District will be prepared and submit a California Department of Fish and Game - Lake Alteration Notification, and California Division of Safety of Dams - Degrade Application. Surplus and demolition materials will be removed from the site in accordance with local, state and federal laws.	NOE
